100 HOLLAND BULBS for only **\$7.25** 12 for \$1.00 25 for \$1.90

RAINBOW MIXTURE OF DARWIN TULIPS

This mixture is well proportioned as to color—harmonizing, bright and striking. Besides the beautiful effect this mixture creates in the garden, it gives a wealth of flowers for cutting.

Stassen Bulbs

Direct From Holland

Spring-flowering bulbs are the first expression of every new season, and gardeners never cease to marvel when they suddenly burst into bloom after the dull and cheerless winter. Besides their earliness, spring bulbs have another unique advantage—they need little care because they come before all the insects that cause damage to most other flowers. All they ask is fall planting in well-drained garden soil.

Stassen bulbs are grown in Holland and shipped direct to us. Generations of experience have gone into producing them, and we know you will be completely satisfied with the results they give.

PAYMENT: We kindly request customers to send cash with order so as to avoid extra expenses for administration.

CULTIVATION: Extensive and simple directions for cultivation will be enclosed with every order.

GUARANTEE: All deliveries are guaranteed to be true to name and color and sure to flower.

BULBS FOR INDOOR WINTER FLOWERING

Paper-White Narcissus
12 for \$1.20

Not only in springtime do bulbs display their loveliness, but they also produce their beautiful blooms in the house during the winter months. The bulbs offered on this page are easily grown for winter blooming in the greenhouse, the conservatory, or in any room where temperature and moisture can be controlled to suit the plants. Extensive and simple directions for the indoor growing of each item will be enclosed with every order.

PAPER-WHITE NARCISSUS

The popular flower for growing in the house during the winter and early spring, either in soil or in pebbles and water. The flowers are pure white, deliciously sweet-scented and bloom very freely. To have a continuous display, make successive plantings two or three weeks apart.

12 for \$1.20 25 for \$2.30 100 for \$8.75

IRIS RETICULATA (Sweet-Scented Iris)

This miniature Iris produces velvety flowers of a deep purple color with a vivid golden spot. They grow to a height of 6 to 8 inches. They may be forced into bloom in the house with the greatest ease and can be had in bloom about Christmas-time.

Plant 6 bulbs in a 4 or 5-inch pot. You will enjoy the results more than we can tell you.

12 for \$1.20 25 for \$2.30 100 for \$8.75

CROCUS VERNUS, VANGUARD

This new variety of Crocus is characterized by the ease with which it can be forced for blooming at Christmas-time and in early winter. Plant bulbs in dishes with soil or pebbles or set the bulbs in dishes with only water.

This variety is very free-flowering, producing five or more flowers from a bulb. The color is soft grayish blue with lavender cast. The delicate pastel shade contrasts beautifully with the orange-yellow stamens.

12 for 70c 25 for \$1.30 100 for \$4.75

PREPARED HYACINTHS

The noble beauty of the large, compact and fragrant Hyacinth flowers is well known. We offer specially prepared bulbs for Christmas and January indoor flowering. Plant bulbs singly in pots or three bulbs in a pan.

Exquisite New Stassen Tulip Varieties

COLLECTION 4

3 bulbs each of the 10 exquisite new varieties listed at right **30 for \$3.50**
Separately packed and labeled

FOR the guidance of those who wish to select the very best of the newest varieties of the favorite May-flowering Tulips, we offer below a list of ten really superb kinds. Each one of the following varieties is, in our opinion, outstanding in its class and color. All are exquisite in tint and perfect in grace of form.

American Flag. (Rembrandt.) The lower part of the petals is bright deep red, the upper part white with red stripes; gradually the white color turns into pink. The base is blue. 12 for \$1.30.

Aristocrat. (Darwin.) The unusually large flower of extremely elegant shape and substance is carried on a tall, strong stem. The color is silvery rose, shading into carmine-rose toward the center. 12 for \$1.80.

Bandoeng. (Triumph.) Mahogany-red, set off by a small bronze edge. Heavy, ball-shaped flower on a sturdy stem; a distinct novelty. 12 for \$1.30.

Bolide. (Darwin.) Enormous flower of a velvety deep scarlet color. Perfectly shaped flower on a tall, robust stem. 12 for \$1.65.

Jessy. (Breeder.) Splendid chestnut-brown, shaded with purple and set off by a bronze edge. Sublime color combination, giving this unparalleled variety great distinction. 12 for \$1.35.

Mount Erebus. (Cottage.) Very massive flower of pure white on an exceptionally strong stem. Bedding Tulip beyond praise. 12 for \$1.40.

Princess Elizabeth Maximus. (Darwin.) A descendant of the well-known Princess Elizabeth. Has the same bright pink color with somewhat lighter edge but the flower is twice as large. 12 for \$1.35.

Queen of Night. (Darwin.) The darkest Tulip of all. Beautiful, large, well-formed, satiny black flower on tall stem. 12 for \$1.30.

Queen of the North. (Cottage.) Delicate white, passing to soft pink toward the edge. A very robust, splendidly shaped flower. 12 for \$1.35.

Wildlust. (Darwin.) Oblong flower of creamy white color. A large-flowering variety of excellent substance. 12 for \$1.45.

Stassen DARWIN
TULIPS

EXHIBITION COLLECTION 6

The finest and most colorful collection in this catalog—the very thing to make an exquisite show. It gives you the opportunity to acquaint yourself with all the worth-while Darwin varieties at a small cost. The garden can be made into a veritable fairyland by scattering the various sorts in groups about the grounds. Label each variety and keep this catalog for reference. You will then be able to judge for yourself which are your favorites.

Long-Stemmed DARWIN VARIETIES

The most useful Tulips for garden decoration and cutting are found in the Darwin class. Their typical features are the tall, upright stems and the large, cup-shaped flowers, while their flowering period comes at the happiest time of the year, when Nature is painting the earth with her loveliest colors. Fill beds with these Tulips; plant them in borders, in front of evergreens, or along the edge of shrubbery and you will be assured of a colorful spring garden during May, extending into June in the northerly districts. Darwin Tulips give cut-flowers of extraordinary quality, which last a long time in water.

CHARLES NEEDHAM. Brilliant scarlet. One of the finest red Darwins.	12	100
	\$1 30	\$9 50
CITY OF HAARLEM. Intense deep scarlet, dark blue base.	1 25	9 00

The Famous RED EMPEROR

This is the very largest Tulip ever cultivated. The tremendous flower is carried on a strong stem, holding it firm and erect. The color is just about the most brilliant scarlet one can imagine, and of such an intensity that the effect is almost blinding. When half opened the flower shows a deep black base with a yellow edge. It blooms with the early Daffodils and grows 18 inches tall.

A group of these famous Tulips in a border or in the rock-garden will contrast brilliantly against a green background.

3 for 40c 25 for \$2.50

12 for \$1.00

Red Emperor Tulip

BOTANICAL TULIPS

Dwarf-growing Tulips of Asiatic origin. Rare and beautiful flowers for the rock-garden. Plant them deep and leave them alone to bloom for many years. They prefer a sunny, sheltered location.

Clusiana. The "Little Lady" Tulip. Outer petals cherry-red, inner petals white with violet base. A lively little variety. 12 100
\$1 00 \$7 25

Eichleri. Crimson-scarlet flowers with a glistening black center marked with gold. Height 12 inches. 1 15 8 50

Kaufmanniana. The "Water-Lily" Tulip. Primrose-yellow, outside petals crimson. Blooms in early April. Height 8 inches. . . 1 20 8 75

Praestans Fusilier. Produces a large plant with four or more orange-red flowers on good-sized stem. The most worthwhile Multiflora Tulip. 1 70 12 75

Princeps. Brilliant orange-scarlet with yellow base; large flower on medium tall stem. 1 35 9 90

Daffodils and Blue Grape Hyacinths combine to make an eye-filling picture in the spring garden.

Stassen

DAFFODILS - NARCISSUS

for Naturalizing

Is there a sight more welcome than the nodding Daffodils or Narcissus under trees or a shrubby planting, brightening the April landscape? Millions of them are distributed each season, and in the early days of spring there is hardly a garden large or small where their vivid colors are not displayed. They are planted in small groups in front of shrubs, in rockeries, or in masses in woods, fields, lawns; in fact, wherever they can be left alone to increase from year to year.

Daffodils are not only splendid to plant at the edge of shrubs and perennial borders, but they in turn may very well have lower-growing bulbs growing at their feet. Here we suggest some excellent combinations. The idea is to plant a picture—a composition that will be harmonious and complete and not just a collection of different varieties.

GOLDEN TRUMPET DAFFODILS

One of the loveliest of spring pictures is a group planting of Golden Trumpet Daffodils in woodland, on banks or a stream, or tucked between shrubs and evergreens. They naturalize exceedingly well and can be left alone for years.

25 for \$1.45

100 for \$5.50

BLUE GRAPE HYACINTHS

They require very little attention and flower abundantly in both sunny and shady locations for a long period. They can be left for years undisturbed, to return each spring with more and larger flowers. Recommended for planting in front of Daffodils for a gorgeous display of blue and gold, as illustrated on the left.

MERTENSIA *Virginica*

(Virginia Bluebells)

A beautiful hardy perennial which grows 1 to 1½ feet high, bearing flower clusters of a soft porcelain-blue shade. Blooms during Daffodil-time in April, continuing while the May-flowering Tulips are in full bloom. A most delightful effect can be obtained by interplanting with Golden Trumpet Daffodils, as illustrated on the right.

CHIONODOXA (Glory-of-the-Snow). On the previous page you will find these, the most charming of all spring flowers. They will be admired daily during their flowering time in April. In spite of the cold or snow, they begin to flower early in spring, producing these charming, star-shaped, sky-blue flowers which we know so well. They may be left undisturbed for years and will increase rapidly, in both number and size.

12 for 30c

100 for \$1.75

25 for 55c

GRAPE HYACINTHS (Muscari). The Grape Hyacinth is a favorite among our early spring-flowering bulbs. Who is not familiar with these delicate spires of blue that loom up like so many fairy sceptres? You can make the most beautiful edgings and groups with them; they look charming in the rock-garden and so pretty beneath trees and shrubs. Muscari require very little attention and flower abundantly for a long period; they can be left for years undisturbed to return each spring with more and larger flowers.

Armeniacum. Large spikes of clearest blue flowers.

12 for 40c

100 for \$2.50

25 for 75c

Album. The well-known white Grape Hyacinth.

12 for 80c

100 for \$5.50

25 for \$1.50

HYACINTHUS PLUMOSUS. Produces unique feathery flowers in the shape of a plume. Their color is beautiful violet-blue. An exclusive plant for the rockery. Grow 8 to 10 inches tall. Bloom in May.

12 for 55c

100 for \$3.75

25 for \$1.00

PUSCHKINIA LIBANOTICA. Produces a wealth of creamy white flowers marked with beautiful china-blue stripes, as illustrated on the previous page. They flower abundantly for a lengthy period, in sunny as well as in shady positions, and may be left undisturbed for years. They grow 4 to 6 inches tall and bloom in April and May. Recommend planting in groups in borders, between shrubs, and in the rock-garden.

12 for 35c

100 for \$2.00

25 for 60c

SCILLA SIBIRICA (Blue Squill). As illustrated on the previous page, Squills produce several spikes of intense blue flowers 4 inches tall. Ideal for naturalizing, not being particular as to the soil they grow in. Specially recommended for group planting, for edging, as well as for rock-garden planting. Bloom in April.

12 for 50c

100 for \$3.50

25 for 90c

SCILLA, Spring Beauty. A new variety similar to *Scilla sibirica* but distinguished by its heavy, well-filled spikes of deep blue, strong, bell-shaped flowers. Recommended for every garden; also ideal for indoor culture.

12 for 85c

100 for \$6.00

25 for \$1.60

FRITILLARIA MELEAGRIS (Guinea-Hen Flower). A bulbous plant made conspicuous by its rare combination of colors. Each stem bears a number of pendent, bell-shaped flowers in shades of yellow, white, purple, and brown on stems 12 inches tall. They are very effective when grown among a ground-cover and in colonies and find themselves at home in a rock-garden where the loam is light and moist. If left undisturbed they will return each year in greater numbers. Flowering time, April-May.

12 for 35c

100 for \$2.25

25 for 65c

SCILLA CAMPANULATA (Wood Hyacinth). What is more beautiful than patches of blue, white and pink on the ground while shrubs and trees show their first fresh green foliage? Wood Hyacinths produce this magnificent effect in the spring garden. Plant them in generous quantities, especially between trees and under large shrubs. They do very well in light shade. Left undisturbed year after year, they return in ever greater numbers.

Hardy Lilies

No class of plants for outdoor growing possesses as many charms as Lilies. Rich in color, stately and handsome in habit, and of such delicious fragrance that they stand out prominently, Lilies do best in the hardy border or among shrubbery. Any rich garden soil with good drainage will do. Most Lilies delight in a sunny location, but prefer to have the soil around the base of the plant somewhat shaded. Once established, they will increase in beauty each year.

LILIUM CANDIDUM

(Madonna Lily). A tall June-flowering Lily, on the stems of which the pure white chalice flaunt their beauty and also diffuse a delicate and delightful scent. They look noble and proud along drives, in front of shrubs or in borders and are exceedingly picturesque when interplanted with blue delphinium. There is nothing else so white, so sweet, so pure as the Madonna Lily. Differing from other Lilies it is best to plant them in early fall.
